

SOME QUESTIONS TO ASK WHEN GETTING STARTED

1. How will I create an interesting introduction that will engage my audience?
2. How can I incorporate my personality into this presentation?
3. How will I introduce this concept/idea?
4. How will I discuss this concept/idea?
5. Why am I doing this? Find a motivation. Do you want to give a different spin to the concept/idea?
6. What was most difficult about this concept/idea?
7. What was most interesting about this concept/idea?
8. How can I draw upon the difficult areas or interesting areas of the concept to make my presentation more interesting?
9. How can I incorporate an example of how this idea/concept is used outside of the lab?
10. How will I conclude my presentation?
