2007 IEEE COMMUNICATION THEORY WORKSHOP
MAY 20-23, 2007
HILTON SEDONA RESORT AND SPA
SEDONA, ARIZONA
Website: http://www.ece.utah.edu/~ctw2007/index.html

General Co-chairs

Junshan Zhang
    Arizona State Univ.

Bane Vasic
    University of Arizona

Technical Program Co-chairs

Shuguang Cui
    University of Arizona

Tolga M. Duman
    Arizona State Univ.

Finance Chair::

Cihan Tepedelenlioglu
    Arizona State Univ.

Web Chair:

Rong-Rong Chen
    University of Utah

Call for Posters

The technical program of CTW2007 contains invited presentations and panels. There will also be an afternoon poster session devoted to recent results. The technical program committee is soliciting contributions for this session. We especially encourage students and junior researchers to participate. There will be no published proceedings. Any contribution in the general area of communication theory is welcome.

Extended abstracts (as a pdf file, 2 pages maximum, double column, standard IEEE format) for the poster session should be submitted with CTW in the subject to: ctw07@ece.arizona.edu.

Deadline: April 15, 2007 / Notification: April 22, 2007

Invited Sessions

Plenary lectures by distinguished speakers
- Robert Calderbank (Princeton Univ.)
- Anthony Ephremides (Univ. of Maryland)
- Venugopal Veeravalli (Univ. of Illinois)

Panels for debate forum:
- Network information theory. Chair: Gerhard Kramer (Bell Labs)
- Theoretic and experimental research in communications. Chair: Ashutosh Sabharwal (Rice Univ.)

Single track technical sessions:
- Network information theory. Co-Chairs: Piyush Gupta (Bell Labs) and P. R. Kumar (UIUC)
- Cross-layer optimization. Co-Chairs: Ness Shroff (Purdue) and Mung Chiang (Princeton Univ.)
- Wideband communications. Co-Chairs: Moe Win (MIT) and Helmut Bolcskei (ETH Zurich, Switzerland)
- Coding. Chair: Frank Kschischang (Univ. of Toronto)
- Sensor networks. Co-Chairs: Zixiang Xiong (TAMU) and Lang Tong (Cornell Univ.)
