

You Tube Helps

How to find the YouTube Lectures:

- a) From the ECE 3300 Lecture page (www.ece.utah.edu/~ece3300)
They are linked under each lecture and will take you straight to the YouTube lectures.
The power point file I do the writing on is also linked on the ECE3300 Lecture page.
- b) From YouTube (www.youtube.edu)

Search on ece3300 (which is the class channel) or cfurse (which is my everything channel).
The lectures are labeled ECE3300 Lecture 1-1 part1name, ECE 3300 Lecture 1-2 part2name,
ECE 3300 Lecture 1-3 part3name.

- c) By subscribing. If you 'subscribe' to my YouTube channel, you will receive automatic notification when videos are uploaded. Unfortunately, this will also tell you when I upload videos for various other things other than ece3300.

How to download YouTube Lectures:

(One way I know of , there are probably others)

From Firefox, go to this link:

<https://addons.mozilla.org/en-US/firefox/search?q=youtube&cat=all>

These give you several choices of AddOns for Firefox that will download the YouTube videos as MP4 files. This is the file format for your IPOD, and you should be able to download them directly to your IPOD. Many of these Add Ons have other formats you can download the videos, to watch on your PC.

If you have any other hints you think I should share with the class for managing these videos, please let me know.

Thank you! C Furse
