

Rocky Mountain Power Dispatch Center field trip

The second field trip will be a visit to the main Pock Mountain Power building on North Temple. We will go in two groups at, or near, your regular lab time. We'll meet in the main lobby at about 2:20 pm and the field trip will begin about 2:30. Enter the main lobby at northwest corner of the red brick RMP building on North Temple. The two days will be:

- Friday, 9/29
- Monday, 10/2

Please check your email just before leaving for the field trip in case the it has to be postponed. The dispatch center can sometimes be swamped with work due to one or more power outages. This will almost certainly be the case if we get an early season snow storm on or before the field trip day. In case of postponement you may need to go to lab instead.
