FDTD

Assignment 2 (Chapter 2)

Reproduce Figs. 2.6(a,b) and 2.7(a,b) as described in Section 2.7 in [Taflove and Hagness, 2005].

Turn in your code and the figures. Make sure to comment your code!

See the “special note” at the bottom of page 45. You do not need to replicate the figures exactly – just show me that your code does “blow up” for the unstable cases.
