**Conclusion Grading**

1. **Exchange your lab report Conclusion with another student in the lab section.**
2. **Edit the Conclusion you are grading by correcting grammar and spelling errors.**
3. **Review and comment on the Conclusion you are grading by answering the following questions:**

- Did the first sentence of the Conclusion summarize the entire report adequately?  
(Write an improved sentence here, if appropriate.)
  
- Did the Conclusion list the most significant results for the lab exercise as a whole?  
(If appropriate, list results you think should be added to the conclusion.)
  
- Did the Conclusion give specific information such as numbers or causes of outcomes?  
(If appropriate, list specifics you think should be added to the conclusion.)

4. **Return your review and the Conclusion you graded to its owner.**
